CHAIRMAN'S CHIRP

Well the AGM is now behind us!! The previous committee members have been re-elected for this year. Those of you who attended the AGM will recall Ian Cox's impassioned plea to stand down as Chairman. Ian felt that he would far rather be working on the production of the Bobbin and I'm sure he will do it justice as he always does. The role of Chairman has now fallen on my shoulders and I hope that I have all the members support and I will endeavour to add value to the achievements of the previous committee. We have a great committee that will remain as before barring the Chairman. I will still help out with sourcing interesting and well-known fly tyers.

Talking of tyers, we have some impressive guys for the rest of this year. As most of you know we have Marc Petijean and Moreno Borriero tying in a joint function with the NFFC on the 20th June at Highbury School in Hillcrest. We have commitments from Rob Pretorius, Wayne Stegen and Peter Brigg and are in negotiations with JP Gouws, Tom Gifford and Raymond Meneses to complete the line-up for the year.

On the fishing front we can report that the river season started off with very meagre pickings but surprisingly ended off as one of the most memorable seasons. If you missed out best get yourself prepared for Sept as it has all the signs of being a spectacular summer season. In the coming months we will see the attention turn to still waters. There are many options to choose from around KZN. The Club has recently launched a WhatsApp group. Those of you who find it hard to find a buddy to fish with... we are just a message away. Get out there... life is too short not to go fishing!!!

FROM THE EDITOR

It is with considerable relief that I give up the role as chairman of the DFT and hand the baton on to Andrew Mather. It is a job he is well suited to. I think we can all be very grateful that he put his hand up and agreed to take it on. I leave it to Andrew to set out the way forward in his Chirp but can say that things are looking up. I return to my happy place as editor of the Bobbin with thanks to my committee for their support and assistance during my brief tenure as chairman.

The Bobbin still cries out for articles from other members. It does not have to be much. A piece short or long about fly fishing or tying or a fun or even a not so fun trip will do. You can even tell us about your wife's view of your sport, if you dare.

It is not a good idea however to reveal how much your stuff coat. That might have consequences for the rest of us!

Please let me know how you like the new logo.

IT'S A GIGGLE

PEANUTS

Though her husband often went on business trips, she hated to be left alone.

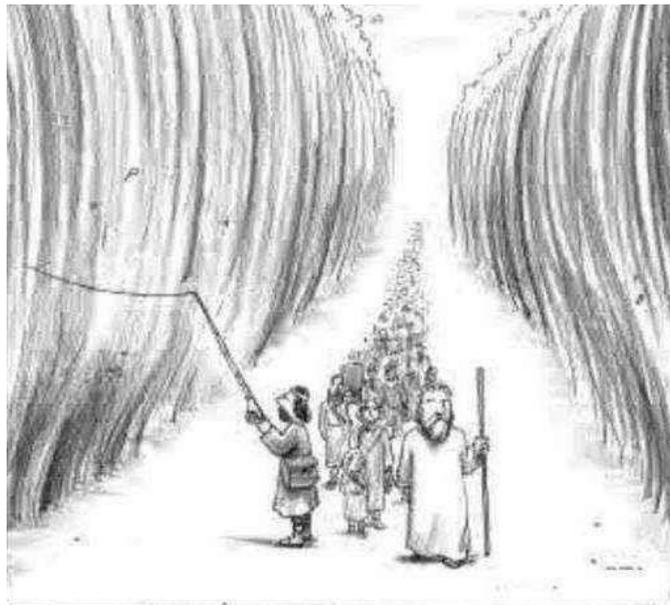

"I've solved our problem," he said. "I've bought you a St. Bernard. Its name is Great Reluctance."

"Now, when I go away, you shall know that I am leaving you with Great Reluctance!"

She hit him with a waffle iron.

ARTICLES

[Wise words from Jolyon Nuttall](#)

Culled from the April 1967 Field and Tide

In the same way that some fathers book their sons into their old school half an hour after the little beggars are born, so others deposit their male offspring on the banks of a trout stream as soon as they are out of nappies. This is a fatal step, guaranteed to drive Junior to drink or judo or sea-f fishing or something. The desire to acquire the art of trout fishing must come naturally, with no more than a dose or two of moral persuasion from Father

Law and Conservation

The [Conservation Imperative](#) asked me to do a series of short articles on environmental law related issues pertaining to conservation for publication on their [Facebook page](#). I have done 10 of them this far. They are all short - around 850 words. They deal with a lot of the issues I have discussed in relation to the trout fight but in a much more general and accessible way. They are published weekly on the Conservation Imperative and are reaching thousands of people. Those who follow me on Facebook will see that I publish them on my Facebook page as well.

The trouble with Facebook is that they are hard to find after a day or so. Given that they have relevance to the trout fight I reproduce them here further embellished with a few hyperlinks:

[Cunning plans and other disasters](#)

By Ian Cox

This is a follow up on my “Joining the dots” article published in the April Bobbin. It is lengthy and fairly technical but speaks to the recently discovered National Strategy for Dealing with Biological Invasions in South Africa that was published in March 2104. Though never officially published for public comment or adopted, I argue it has nonetheless played an influential role in directing how DEA is dealing with invasive species and indeed its behavior in relation to trout. I look at the moves taking place behind the scenes and the apparent failure of the alien invasive species lists and regulations revealed in a recently published preliminary draft report. I conclude with some views on what might happen in the future. Click [here](#) for more.

CLUB STUFF

The AGM

The AGM came and went. It was a well fueled affair thanks to Bruce Curry. The Committee remained unchanged though subs increased R20.00 largely to enable the club to support a club membership of FOSAF. The cost of grog is also up to R20.00 for beer and R15.00 for the lighter stuff. The new logo also got approved but with spelling mistakes corrected. The minutes for those that read those things will be sent to members separately.

"Listen to the sound of the river and you will get a trout."
